**Name of Applicant : NA**  
**Address of Applicant : NA**

(72)Name of Inventor :  
**1)Dr Jasneet Kaur**  
 Address of Applicant :Symbiosis College of Nursing (SCON), Symbiosis International (Deemed University) Campus Hill Base, Lavale, Pune 412 115 Pune -----  
**2)Dr Sheela Upendra**  
 Address of Applicant :Symbiosis College of Nursing (SCON), Symbiosis International (Deemed University) Campus Hill Base, Lavale, Pune 412 115 Pune -----  
**3)Ms Shital Barde**  
 Address of Applicant :Symbiosis College of Nursing (SCON), Symbiosis International (Deemed University) Campus Hill Base, Lavale, Pune 412 115 Pune -----

(57) Abstract :  
 ABSTRACT A COMMUNITY HEALTH NURSING CARE BAG The "Community Health Nursing Care Bag" (201) is uniquely designed with distinct compartments for sterile, clean, and unclean items, ensuring infection prevention. The topmost compartment (202, 203) features two equal sub-compartments solely for sterile instruments and disposables. Different openings for each compartment enhance accessibility. Dual side pockets (105) serve various functions, from holding hand washing articles to accommodating measuring tools and a diary. Made of durable Rexin material in dark brown for concealment of dirt during travel, the bag (201) prioritizes practicality and professionalism. Scientific principles guide its layout, emphasizing the importance of maintaining separation between sterile and unclean items. Careful dimensions (length: 45 cm, width: 30 cm, height: 37 cm) balance capacity and portability, catering to the needs of community health nurses on the go. Overall, the bag's innovative features (202, 203, 204, 105) optimize functionality and infection control in healthcare settings. [To be published with Fig 1]
