Dear Sir,

Greetings from Symbiosis College of Nursing!

The Department of Child Health Nursing is organizing an International webinar on the theme “**Digital Epoch: Godsend or Catastrophe for Children & Adolescence**” on February 05, 2021, at Symbiosis College of Nursing, Lavale, Pune.

About the Seminar:

Digital Epoch represents an event or time that is marked by a series of digital events. Digital technology has already changed the world and more children using online services around the world. Smartphones are fueling a ‘bedroom culture’ with online access and many children becoming more personal, more private, and less supervised. Connectivity can be a game-changer for some of the world’s most marginalized children, helping them to fulfill their potential and break intergenerational cycles of poverty. However, excessive use of digital technology can contribute to childhood depression and anxiety. Conversely, children who struggle offline can sometimes develop friendships and receive social support online that they are not receiving elsewhere.

This webinar emphasizes how digital technology has already changed children’s lives and explores what the future may hold for children and adolescence.

You are definitely one of the eminent and resourceful professional with abundant experience and knowledge. We propose to have your lecture on the topic of ‘Mission of Vision in E – Learning & Innovative Strategies for Children and Adolescence’ on the said day between 9.30 am – 10.15 am.

Your session will be virtual on the Zoom platform. We are expecting professionals from Healthcare Industry, Nursing students, Nursing officers, and Nursing Administrators from various hospitals/colleges in Pune and other cities as our audience.

It will be our proud privilege to have an eminent person of your stature to share knowledge & expertise with our healthcare fraternity.

I request you to kindly accept our invitation.

If the same Memento is planned to be given to the person from SUHRC as is planned to be given to the external speakers, then the courier charges have not been included in the costing.

Please reconsider the idea of Mementos. Quite a few of our Institutes have started using E-Vouchers which reduces handling and the risks associated with it

Dear Sir

E -vouchers may not work out for us as the amount is too small.

Hence decided to go with Memento.

Foreign speakers as I know their residence address in India we are planning to send and save on international courier charges.

One more speaker as recommended by Dean, Dr.Rajiv Sir may join.

Hence the cost includes that also.

Dear Madam,

Greetings from Symbiosis College of Nursing!

The Department of Child Health Nursing is organizing an International webinar on the theme “**Digital Epoch: Godsend or Catastrophe for Children & Adolescence**” on February 05, 2021, at Symbiosis College of Nursing, Lavale, Pune.

About the Seminar:

Digital Epoch represents an event or time that is marked by a series of digital events. Digital technology has already changed the world and more children using online services around the world. Smartphones are fueling a ‘bedroom culture’ with online access and many children becoming more personal, more private, and less supervised. Connectivity can be a game-changer for some of the world’s most marginalized children, helping them to fulfill their potential and break intergenerational cycles of poverty. However, excessive use of digital technology can contribute to childhood depression and anxiety. Conversely, children who struggle offline can sometimes develop friendships and receive social support online that they are not receiving elsewhere.

This webinar emphasizes how digital technology has already changed children’s lives and explores what the future may hold for children and adolescence.

You are definitely one of the eminent and resourceful professionals with abundant experience and knowledge. We propose to have your lecture on the topic of ‘**Gadget addiction & Evidence Based Practice & Parental responsibilities**’ on the said day between **10:15 am – 11:00 am**

Your session will be virtual on the Zoom platform. We are expecting professionals from Healthcare Industry, Nursing students, Nursing officers, and Nursing Administrators from various hospitals/colleges in Pune and other cities as our audience.

It will be our proud privilege to have an eminent person of your stature to share knowledge & expertise with our healthcare fraternity.

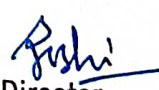

I request you to kindly accept our invitation.
